Today we'll discuss

1. What is cybersecurity and why it's important
2. 5 common cybersecurity threats
3. What are the consequences for practices?
4. Panel discussion with our cybersecurity guest experts

7

What is cybersecurity?

- A digital guard that protects your devices
- Keeps your clients' information safe
- Cybersecurity practices include using software to adopting smart online habits

8

Five common types of cybersecurity threats

- > Phishing attacks
- > Malware attacks
- > Password attacks
- > Human error
- > Insider threat

9

What are the consequences for practices?

-  Practices hold a lot of sensitive data
-  Can lead to loss of clients and revenue
-  Can lead to reputational damage

10

Panel discussion

Richard Grey
Chief Information Security Officer at Bright

James Bore
Chartered Security Professional and Managing Director of Bores Group Ltd.

Jemma Davis
Cyber Behaviour and Culture Transformation Consultant and CEO of Culture Gem
